

# ZOSIA ROBERTS

CHIROPRACTIC INTERN

## BACKGROUND

Zosia Roberts is our newest chiropractic intern from Palmer College in Florida! She is following in her family's footsteps, as the 5th chiropractor in the family! She grew up in Landenberg, PA where her parents live and practice. Zosia has been an avid athlete since childhood, playing field hockey from middle school and into college.

## EDUCATION

Zosia attended Liberty University in Virginia, graduating with her Bachelors degree in Exercise Science. She is in her 9th trimester at Palmer College in Florida and was the president of the International Chiropractic Pediatrics Association.

## WHY CHIROPRACTIC?

Chiropractic seems to run in the blood in Zosia's family and she has been adjusted since she was a baby! Once having decided on a career in healthcare, she knew that she wanted to help people in a hands-on way. She loves all of the ways chiropractic can be applied to facilitate the body's innate healing.

## AREAS OF SPECIAL INTEREST

Zosia loves taking care of everyone but her passion is women's health and pediatrics.

## WHAT DO YOU LOVE TO DO IN YOUR FREE TIME?

Zosia is very active. In her free time, she can be found coaching classes at Orange Theory Fitness, helping members reach their fitness goals and experience more life. She also enjoys looking for new places to eat and fun adventures go to on with her new puppy Tessa!
