

BAILEE MEIER

CHIROPRACTIC INTERN

BACKGROUND

Bailee was born and raised in small town Sumner, Iowa. Here she grew up and immersed herself in outdoor activities, sports, and her close-knit community. She spent a lot of her time as a kid tagging along with her dad on fishing trips and being shown how to enjoy the simple things in life with her mom. Growing up with one older brother has made Bailee into the competitive spirit she is today. This translated to the variety of activities she competed in throughout her years such as volleyball, basketball, gymnastics, softball, cross country, and the occasional board game with grandma. After leaving her hometown, Bailee moved to Cedar Falls, Iowa for her undergraduate studies. She spent most of her time here working an assortment of jobs such as a housekeeper, dog walker, and universal worker at the nursing home. Following her undergraduate studies, Bailee moved to Davenport, Iowa to pursue her passion of helping others, which has led her here to Denver, Colorado. Upon completing her professional degree, Bailee will be a first generation chiropractor and is eager to join this life changing profession.

EDUCATION

After graduating as valedictorian from Sumner-Fredericksburg High School, Bailee continued her education at the University of Northern Iowa where she could enroll in a Pre-Chiropractic program allowing her to finish her undergraduate studies within three years, earning her Bachelor of Science and graduating cum laude. After completing her undergrad, Bailee made the move to Davenport, Iowa and attended Palmer College of Chiropractic (Palmer Main) to begin learning the history and craft of chiropractic care. At Palmer, Bailee worked on finding her niche and found a passion for working with pregnant mommas, babies, and families. She looks forward to continuing her education during her last trimester of chiropractic college here with us at Washington Park Chiropractic!

WHY CHIROPRACTIC?

Chiropractic was introduced to Bailee at a young age as she would attend chiropractic appointments with her grandma. She was originally amazed by all the cracks and pops that came with each adjustment, but fell in love with the impact it made and the life it gave back to her grandma. First-hand she saw the power of the human body and its ability to heal with the guidance of chiropractic care. In those moments, Bailee always knew she wanted to be the one that could help people get back to their best life and do the things they love.

WHAT DO YOU LOVE TO DO IN YOUR FREE TIME?

Bailee enjoys staying busy but in her free time she finds joy in tending to her many plants, going to the local farmer's market, traveling, and spending time outdoors with family and friends. Her greatest joy in life is being a dog mom to her adopted husky, Bruno! This Midwest girl is excited to explore what the state of Colorado has to offer.
